

MUGEN CIVIC COMPLETE CAR

MS-3 Complete Engine

**MS-1 HIGH PERFORMANCE PARTS FOR HONDA CIVIC 1200**

MS-1 high performance parts are intended for normal road as well as competition use, but are not recommended to use against traffic and smog control. Manufacturers and exporters carry no responsibility for any of such violations. No claim shall be accepted.

ORD.NR.	PARTS NR.	COMMODITY
MS1-1	14111-MS1-0000	<b>CAMSHAFT A TYPE</b> Imm high lifted cam allows smooth performance for sport ride.
MS1-2	14112-MS1-9600	<b>CAMSHAFT B TYPE</b> 2mm high lift. This cam gives excellent high speed driving performance. Also adequate profile for rally use.
MS1-3	14211-MF318-0010	<b>DRIVEN PULLEY</b> This mechanically handsome driven pulley allows quick and accurate valve timing tune. Definitely good to use with A or B type cam.
MS1-4	14700-MS1-9200	<b>VALVE SET</b> In & Ex 4pcs each Same top-diameter as standard valves but much lightened, inlet-valve weighs 8gs and exhaust 16gs, allows smoother rotation ascent particularly at higher RPM.
MS1-5	14760-MS1-0000	<b>VALVE SPRING SET</b> In & Ex 8pcs each Intended for use with A or B type cam and MS1-4 for higher HP and RPM. Valve springs alone certainly relieve the worry of valve surge at higher RPM. Super high tension steel realized intensity 30% up.
MS1-6	18000-MS1-0000	<b>EXHAUST MANIFOLD KIT</b> Include all necessary mounting wear. 4+2 type well designed manifold increases 20% of output in combination with other necessary modification.
MS1-7	12300-MS1-0000	<b>ALUMINUM CYLINDER HEAD COVER KIT</b> Include aluminum cap, nuts, wire guide and packing. Fabulous designers of Mugen offer with confidence this beautiful item same one equipped on MS-2 & 3 complete engines.
MS1-8	13100-MS1-0000	<b>72mm PISTON KIT</b> 1238cc Kit includes 4 lightweight pistons, 8 rings, 4 pins and 8 clips. With 37.5 ~ 39.5cc combustion chamber capacity produce proper compression ratio (9.5:1~10.5:1). Instruction for necessary modification to cylinder head or GL BASE MUGEN CYLINDER HEAD is available on request.
